PN features explained

Packaging News aims to give in-depth coverage of every sector of the market throughout the year, both in terms of business and innovation.

General feature

This feature will be on a topical issue that is decided close to the publication date; examples from 2010 included Courtauld 2, graduate training and management buy-outs

Sector Focus

This feature examines the forces at work in a particular business sector, categorized either by material or by activity

Market

Trends in design and innovation in an end-user market come under the spotlight in this feature

Equipment Buyers' Guide

The monthly equipment feature looks at developments in a given sector of the machinery market, while the two-page Buyers' Guide tables are an invaluable guide to products and suppliers

Supplements and specials

Throughout the year, Packaging News produces show guides, show previews and in-depth reports on specific areas of interest - including our popular annual Environment report
